PATENT COPPER-COATED IRON SPIKES, BOLTS, DECK BOLTS, COPPERED SHEET IRON,

Samples sent to order, with certificates from A. A. HAYES, Assayer to the State of Massachusetts, also of Committee on Science and the Arts of the Franklin Institute, Philadelphia, and of those who have used and are using the Fastening.

[Copy of a Letter.]

BALTIMORE, Jan. 8, 1856.

Messrs. C. & J. Marshall—Gentlemen: At the request of your Agent in Baltimore, in regard to our opinion and experience of your copper-coated spikes, we, without hesitation, say we believe them the best substitute for copper yet introduced, and better fastening for ships, inasmuch as you have the strength of iron with the preservative qualities of copper.

We have used some of your Spikes in old vessels as a substitute for copper, and have had occasion to draw them out a year afterwards, and found them with the coating as firm as when they were driven, and with no appearance of oxidation.

Very respectfully yours,

(Signed) JOHN D. FARDY & BRO.

Singer's Sewing Machines.

ALL PERSONS who desire to obtain full and reliable information respecting SINGER'S SEWING MACHINES—their price, capabilities advantages, sizes, improvements, method of working, means of procuring them, and all other particulars—can do so by applying at our office,

No. 323 Broadway, New York,

by letter or in person, for

I. M. SINGER & CO'S GAZETTE.

This paper is devoted entirely to the Sewing Machine interest. Copies will be supplied gratis to all interested.

N. B.—The unparalleled success of our Sewing Machines has induced several fraudulent imitations of them, besides numerous infringements of our patents—of which we own sixteen. Suits for the infringement of our patents have recently been decided in our favor in the U. S. Circuit Courts in New York and New Jersey. In these suits the great principle of Holding down the Fabric to be Sewed to the Surface of the Machine, by a yielding pressure, which is used in all Sewing Machines—has been fully established. The Wheeler & Wilson, and the Grover & Baker Sewing Machines, as we allege each infringe three distinct patents owned by us. We have suits against them in several of the U. S. Courts, which will soon be tried. We hereby caution the public not to buy any infringing Machines, as they can be compelled by law to stop using them, and to pay costs and damages.

Local Agents wanted to make sales of our improved sewing machines. To persons properly qualified for the business, a rare opportunity for profitable and pleasant employment is offered.

New and improved machines exchanged on liberal terms for old machines of every kind.

OFFICE of the Commissioner of Lotteries.—Baltimore, April 18, 1856. The undersigned, Commissioner of Lotteries of the State of Maryland, being in receipt daily of letters from various portions of the country, making inquiry as to Lottery Schemes with which the country is flooded, and which purport to be "decided by the Drawings of the Maryland Consolidated Lotteries," takes this method to answer all such letters of inquiry, and inform the public that all Lotteries purporting to be decided by the Maryland Drawings are Gross Frauds; that certain parties who style themselves Morris & Co., and pretend to be Managers or Sole Agents for the Grand Charter Lotteries at Cleveland, Ohio, are impostors; and said Lottery a fraud, having neither legal or presumptive existence; and that another fictitious firm, styled Murry & Co., Cleveland, Ohio, are also impostors, and all Lotteries which they profess to be managers or agents for, are also frauds.

RICHARD FRANCE, of this city, is the Contractor for drawing the Maryland Lotteries. The business is conducted under the firm of R. France & Co., as Managers, and they have no sole agents in the city of Baltimore. There are, however, some forty licensed venders for the State of Maryland, who derive license under him through this office, to sell tickets in the Maryland Lotteries.

The Great European Cough Remedy.

Important to the Consumptive and the Public generally. The celebrated

Universal Cough Mixture

IS a safe and effectual Remedy for Coughs of every description, whether of children or adults, of recent or long standing.

PREPARED ONLY BY

REV. WALTER CLARKE,

Sole Proprietor, Cornishville, Maine.

Within the last twelve months thousands of bottles of the Universal Cough Mixture have been sold in the State of Maine alone, and everywhere its extraordinary power in relieving and curing diseases of the Chest and Lungs, is gratefully acknowledged; and especially in cases of obstinate and long standing Coughs, it speedily allays the unpleasant sensation in the throat which excites coughing, it promotes free and easy expectoration, and by removing the exciting cause of the cough, it frequently enables the sufferers to enjoy natural and refreshing sleep, who for weeks had been deprived of that blessing.

Sold in trial bottles, 25 cents each; large bottles, each containing the quantity of four small ones, 75 cents each.

Extract of a letter from Daniel Adams, Esq., of Bowdoinham, Maine.

FEBRUARY, 17th, 1853.

To Rev. Walter Clark. Dear Sir—The bottle of Cough Mixture which I bought of you at Topsham had the desired effect on my wife. She had been afflicted with a cough for two years—that bottle entirely removed it.

From Rev. Jesse Hoyt, Lewiston Falls.

BRO. CLARKE—Every bottle of the Universal Cough Mixture which you left with me, is sold—and I have several applications for more. As far as heard from all have been perfectly satisfied with the medicine. One man, who had a cough of long standing, attended with tightness of the chest and shortness of breath, so that he was laid aside from business, purchased one large bottle, and before he had taken one third of it, was perfectly cured, and has had no cough since. He says it is the best medicine in the world, and cannot be recommended too highly.

JESSE HAYES.

From Mr. Fletcher Chick, agent for North Dixmont, Maine.

DEAR SIR—A number of the most extraordinary cures have been effected by your Universal Cough Mixture in this place. Several who had coughs of a year's standing, and others who have been doctored six months without receiving any benefit, have been speedily cured by the Universal Cough Mixture.

From Mrs. Hubbard, Thorndike, Me.

FEBRUARY 1, 1854.

To Rev. Walter Clark. Dear Sir—This certifies that I have used one bottle of your Universal Cough Mixture for a distressing cough and soreness in the lungs. I had previously taken several kinds of medicine, and had been under the care of several physicians, without obtaining the least relief; happily your Universal Cough Mixture was recommended to me. I procured a bottle, which I began to take according to directions on the label, by which in a few days I was entirely cured.

ARNOLD'S COMBINED

FOOT-STOVE, LANTERN,

....AND....

NURSE-LAMP.

ALBERT NOYES having purchased the exclusive right for manufacturing and vending in Penobscot county, the above valuable invention, is now prepared to offer them to the public.

As a FOOT STOVE, it answers an excellent purpose, as it can be sufficiently heated in less than one minute to warm and dry the feet in the coldest winter weather, and will be found to be an indispensable article in traveling. It is heated by an oil, alcohol, or fluid lamp, the flame of which is protected from every external object.

As a LANTERN, it answers all the usual purposes, and is less likely to be overset or get broken, and can be used as a house lamp with equal advantage.

As a NURSE LAMP, and in cases of sickness, it is of great advantage in keeping drinks or medicines warm, beside giving the light desired, and for cooking in small quantities. For making tea, &c., it will be found very convenient, as a quart of water can be boiled in fifteen minutes, and a flat-iron heated in the same length of time.

In fact, the various purposes to which this neat apparatus can be put may be readily conjectured by every one. No further description is required, as no one can misunderstand its general utility. To say any thing more respecting its adaptability to a hundred purposes would just be telling what our readers can all see at once for themselves.

For sale, wholesale and retail, at

No's 16, 17 and 19 Central Street, Bangor.

The Testimony Accumulates

—in favor of—

Allied Ointment.

Mr. C. H. KENT:

Dear Sir—I have been troubled for fifteen years with eruptions and biles on my face. I tried various remedies until I was disgusted at the sight of medicine. By your recommendation I was induced to make a trial of the celebrated Allied Ointment. It has more than answered my expectation. My face is now perfectly smooth and free from all eruptions. I am fully convinced of its merits, believing it will do all you claim for it, if used according to the directions.

Meeting for Kansas.

Mr. John C. Dunn, one of the Free State men of Kansas, who went from Aroostook County in this State, is now in this city. He left Lawrence on the day of the recent raid upon that city, and his mission is to aid in impressing upon the people of the North and East, the necessity of sending more men and material aid to the Territory, if they would prevent the Free State men from being entirely crushed out, and slavery fastened upon the Territory.

Mr. Dunn confirms the statements made in the papers relative to the violent and reckless assault upon Lawrence. He says, however, that only six of the Sharp's rifles were given up, the remainder having been taken care of by men who knew how to use them.

A large number of our citizens met Mr. D. on Saturday evening, and after some consultation it was determined to call a public meeting of citizens this (Monday) evening at City Hall, to hear the statements which Mr. Dunn may make, and to consult upon measures for aiding the Free State cause.

The meeting should also give some expression to the sentiment of Bangor relative to the assault upon Senator Sumner.

The Kansas Frauds.

The Bangor Democrat of last week had a long article made up chiefly from Douglas's recent report from the Senate Committee on Territories, endeavoring to make out that the Missouri Border Ruffian Legislature which the President is sustaining in Kansas was *legally* elected. That the forms of an election, were gone through with, and formal returns made by persons calling themselves Judges of election is well known—and also that Gov Reeder gave certificates of election to some of the members thus returned, where nobody appeared to contest them or to expose the frauds. But the fact is equally understood that illegal *voters* from Missouri, controlled a majority of these elections by violently taking possession of the polls. Therefore, although returns in the legal form may have been made, the elections themselves were primarily illegal, because decided by illegal votes. We claim that Congress ought to *go behind those returns*, and declare the elections void. And this is what the House proposes to do in the case of the election of Delegate. The EVIDENCE of fraud, outrage, and *illegality* appears sufficiently strong in the reports of testimony taken by the Congressional Commission recently sent to Kansas. What this investigation has elicited is summarily stated by a contemporary as follows

The main result of this inquiry is to establish by irrefragable proofs and beyond the possibility of contradiction facts heretofore published in regard to Kansas, but which their "Democratic" instigators have hitherto had the hardihood to deny. Let us briefly review the points proved, so far.

The illegal votes at the Polls of Kansas are proved not only by the evidence of those who stood by, but by the confessions of those who put them in the ballot box.

The assaults upon the Judges, and their being driven from their seats with pistol and bowie knife, are proved by the testimony of the Judges themselves and their associates.

The existence of a Secret Society in Missouri sworn to establish Slavery in Kansas, even at the cost of violence, is proved by the acknowledgements of its own members.

That armed gangs of Missouri men set out for Kansas on the day before election is testified to by their Missouri friends and neighbors.

That they arrived and committed the crimes charged upon them, is proved by those who rode in their wagons, and talked with them in their camps.

The official Census, which the Committee have taken copies of proves that there were 6 000 less inhabitants in the Territory, than votes cast at the Polls.

The Poll Lists, which have also been copied, prove that NOT ONE-QUARTER OF THE VOTERS who claim to "have elected the Territorial Legislature," ever slept two successive nights in the Territory.

The Boston Chronicle says.

"There were 6,000 votes cast at the March election in 1855, and it is already proved before the Committee that 7000 of them were cast by citizens of Missouri. What odds does it make whether the rest were cast by real residents of the territory or not?"

We have received a copy of a new and rabid pro-slavery paper published in Boston, and misnamed "The Constitution," with a request to exchange. We do not desire the further acquaintance of a paper which can deliberately publish such an atrociously false paragraph as the following, in relation to Herbert, the *democratic* member of Congress from California, and the assassin of the Irishman Keating:

"A Free Soil Abolition, Black Republican Representative in Congress may shoot down a servant at a hotel, without a shadow of a provocation, and it is all right. No pulpit eloquence is expended on that occasion. No indignation meetings are held, no excitement is manufactured. It was only a white man shot. The rights of the poor black are not interfered with. Suppose a philanthropic member of Congress, a glorious advocate of the rights of man, did shoot down a servant, what of it?—It was only a poor Paddy;—it was not a black man."

SUMNER'S SPEECH. The Boston Traveller publishes the whole of Mr Sumner's great speech, in a single number of the paper—occupying 18 columns. In reply to an order from M. S. F. Wetmore of this city, the clerk of the Traveller office says that within 24 hours after announcing that the Speech would be supplied, they had orders for 30,000 copies from the States of Massachusetts and New Hampshire alone.

What Platform the Party Must Stand Upon?

The Democratic National Convention meets at Cincinnati to-day (Monday). We may have by telegraph to-night, some account of the first day's proceedings—but probably there will be no approximation to a nomination.

In regard to the candidate, it makes very little difference, (as to their position upon the Kansas or slavery question,) which of the prominent competitors is nominated. If Pierce does not receive the nomination, the successful man must step into his shoes and carry on his work. THE PARTY is bound hand and foot to the interests of slavery, and *whoever* is the Presidential candidate, he must endorse the actions of Pierce and Douglas in subduing Kansas to slavery—or, he cannot receive the votes of the South, and Mr. Buchanan has already shown himself ready to do this.

In proof of what we say, we will copy from a South Carolina paper, now before us, containing the proceedings of the Democratic State Convention of South Carolina, held on the 5th of May the following resolution:

"4 *Resolved*, That in conformity with the request of our sister State, Georgia, "to co-operate with her" upon the subject, this Convention deem it fit and proper at this time that it should be represented in the National Democratic Nominating Convention, *upon condition*, in the language of our friends of Georgia, that said Convention "shall adopt a platform of principles which shall, amongst other things, include in substance the following propositions: 1. The recognition and adoption of the principles contained in the Kansas and Nebraska act, and in conformity with these principles, that the people of Kansas have the right, when the number of their people justifies it, to form a constitution with or without slavery, and be admitted into the Union upon terms of perfect equality with the other States. 2. That neither the Missouri Compromise nor any other anti-slavery restriction shall hereafter be extended over any territory of the United States. 3. The prompt and faithful execution of the fugitive slave law, and its prominent continuance upon the statute book."

This resolution among others, was adopted by the convention, after a speech from Mr. Orr of S. C., in which he said:

"He had supported the Kansas Nebraska bill, and although, since its passage, a storm of fanaticism had swept over the North, WE HAVE EVERYTHING NOW IN OUR FAVOR. The President was determined to use the whole power of the Government, if necessary, to enforce the execution of the laws under the Kansas-Nebraska act. THESE LAWS WERE DESIGNED TO PROTECT SLAVE PROPERTY.

"Col. Orr asked what had we to complain of now? We stand in a better position than we have done since the adoption of the Constitution. The repeal of the Missouri restriction has restored us to equality, and the question now with us is shall we stand by the Northern friends who had aided us in the accomplishment of this? BUT FOR NORTHERN DEMOCRATS, KANSAS COULD THIS DAY BE CLOSED TO US!"

Mr Orr also said, that although South Carolina's first choice was Franklin Pierce, she would have the utmost confidence in any candidate who would probably be nominated. He added that Mr. Buchanan was true to the Constitution and ready to stand by the Kansas Nebraska act."

Thus it will be seen that if Mr. Buchanan is nominated, he must be pledged by his friends (in the language of Mr Orr) "to use the whole power of the government, to enforce the laws of Kansas to protect slave property.

FROM KANSAS. The telegraph brings us further details of the attack of the slavery mob upon the city of Lawrence. The fact that there was no resistance is partially explained by some extracts from the Leavenworth correspondence of the Missouri Democrat. Writing on the 18th inst., the correspondent says:

Charles Robinson is a prisoner at Lexington, Col Lane is in Indiana, Gov Reeder is absent, the practical talent of the Squatter's party is not in the territory. A crisis was approaching, and the iron-men were wanted to front it.—The fighting men of the territory were there, ready to defend the city, well drilled and exasperated by a series of petty annoyances; but they had no leader, and their skill and courage and money were thrown away—and a great cause endangered by it.

The Committee of Public Safety—the Lawrence boys call it the Safety Valve—resolved that, as the National Administration had made the Draconian Code of the Border its own, and was determined at all hazards to enforce it, it would be better policy to permit Marshal Et Cetera Donaldson's mob to enter the town and act as they pleased.

They took immediate measures to hide all the arms and ammunition in town.

The gentleman who gave us this information added that every one against whom writs or warrants had been issued by the Territorial Courts were leaving town.

We had no desire—not the least—to be caught by the mob, and therefore we returned to Leavenworth."

On the next day the same writer said:

"A Virginia gentleman arrived here a few minutes ago. He left Lawrence on Saturday at noon. He said that as soon as the Safety Committee had determined to offer no resistance, the citizens of Lawrence began to leave the place in crowds. Sixty persons left Lawrence at daybreak on Saturday for Kansas City and Topeka. On Saturday at noon, he said that only the property-holders were in Lawrence. Meanwhile, the invading army around Lawrence is increasing. What the result of this exodus will be is impossible to foretell.—Certainly, the fact that a peaceful, orderly, intelligent, industrious Northern community have been obliged to fly their homes for safety against a 'legally organized' force, chiefly from a neighboring State, armed with Federal guns, led on by Federal officers, and encouraged by the Federal Administration—certainly, I say, this damning, unparalleled fact, will have no tendency whatever to lull sectional agitation, produce international good will, or give additional security to Southern institutions."

The Congressional Commission was at Leavenworth on the 18th inst., taking testimony. Whitfield still delays bringing in his witnesses, and it is more than suspected that he has none to produce.

GUANO. We publish below a letter from Hon. Amasa Walker, on the use of Mexican Guano, addressed to Henry Cobb, Esq., of Amherst, copied from a paper of that town.

N. BROOKFIELD, April 5, 1856.

DEAR SIR: Yours of the 3d is at hand. I made use of the Mexican Guano last year, sufficiently to satisfy myself that it was a fertilizer. It was most successful on corn I yesterday met with my friend, Mr. C. W. Forbush, of Grafton. He is an excellent farmer. He told me he used the article extensively last year, and thought highly of it. He recommended me to sow it broadcast and harrow it in and then plant corn or potatoes, or sow spring wheat, or apply it on grass land. If for corn, one quarter of a ton to the acre he thought would be enough. For grain crops I think you and your neighbors will get well paid in using it. Yours truly, AMASA WALKER

The importers of Mexican Guano, Lang & Delano, No 52 Commercial street, or their agents, Kemp & Cushman, No 126 Milk street, have a small quantity of this article for sale, *at low prices*. Their advertisement is in another column.

We refer any of our readers in want of a *genuine Ambrotype*, to the advertisement of J. Briggs, in another column,—being the only place on the Street where the genuine is taken.

Loss of a Bangor Vessel.

We publish by permission the following letter received in this city by the last mail, by one of the owners of the brig Samuel and Edward, of Bangor, which sailed from New York Mar 17, having a cargo of lumber for Buenos Ayres.

BRITISH SHIP SALAMANCA,
English Channel, May 12th, 1856.

Jones P Veazie, Esq.:

Dear Sir. It is with sincere regret I announce the total loss of the brig Samuel and Edward, which unfortunate event occurred at 12 10, A. M., on the 12th of April, 26 days out from New York, in lat. 10 min 28 seconds north, long, 30 deg. 31 min. west, by being run into, dismasted and waterlogged. About 11 o'clock on the night of the collision the moon set, after which it was very dark; hung a light on the fore stays and kept a good look-out for vessels, having passed close to two ships the day and night previous standing to the northward. At 12 10 the look-out saw a vessel ahead, but before he could report her she struck us on the starboard bow, literally smashing it in to the water's edge, and leaving nothing standing but the mainmast and bowsprit. The vessel was a full rigged ship, with painted ports, I suppose bound to some English port.—I asked him to lay by me until the morning, but received no answer. Sounded the pumps, found 2½ feet of water in her, manned them while some hands went to work cutting and clearing away the wreck and heaving off the deckload. Three hours after the collision sounded the pumps, found six feet water in her. At 8, A. M., she was completely waterlogged. At 7, A. M., saw a ship to leeward, supposed to be the one in collision with us, hoisted a signal of distress, which she took no notice of, but proceeded on her course. Rigged a jury foremast, and used every endeavor to get her before the wind, in hopes of reaching a port to leeward, but all our efforts proved useless, the brig was perfectly unmanageable. Remained on the wreck until the 19th, when we were taken off by British ship Salamanca from Bombay for London. Fortunately, we had no one hurt by the falling spars, although all hands were on deck at the time of the collision.

Yours respectfully,
H. C. RAYMAN.

The Samuel and Edward was insured for $4000 in the Bangor Merchants' Marine Insurance Co., and for $3000 in the Waldo Mutual Insurance Company at Belfast. On the cargo there was an insurance of $4000, by the Atlantic Mutual Insurance Company, New York.

ACCIDENT. On Saturday afternoon, John Jackson, mate of schooner Elijah P. Horton, Capt. Dean, of Hampden, while attempting to get from the deck loaded with barrels, slipped, and fell into the dock, hitting the back of his head and shoulders on a piece of timber projecting from the wharf, and injuring him quite severely. The shock deprived him of consciousness, and he fell into the water entirely helpless. The captain and one of the crew seized hold of him and kept him above water till a boat came alongside, when he was taken into it, and from thence to a sailor boarding house. Dr. Brown, Marine Physician, was immediately called, and examined him, and found him not so seriously hurt but that he could be removed to his family in Hampden, which was done the latter part of the afternoon. The distance Mr Jackson fell was 12 feet.

AN EXCURSION BY RAILROAD.—About 12 of the pupils of Miss Costellow's (Grammar) and Miss Hersey's (Select) Schools, go on a picnic excursion this morning to Newport, accompanied by some of their friends. They will return by the evening train.

FROST AND SNOW.—On Friday night there was a frost so heavy as to kill some plants; and on Saturday forenoon some snow flakes fell. Saturday night was also cold and disagreeable. Yesterday was a sunshiny, but windy day.

Hon. James Walker, Land Agent, of Lowell, Oxford Co., who has been a member for several years of one or the other branch of the State Legislature, has removed to this city with his family, and become a permanent resident.

A man was prosecuted in Portland on Friday for selling liquor without license, and fined *five dollars* under the new law. He paid it without finding any fault, and would probably have no objection to doing the same once or twice a month.

We are indebted to Mr Cushing, Clerk of the steamer Daniel Webster, for renewed favors in the way of late Boston papers.

THE SCHOOLFELLOW for June is received through Messrs Fetridge & Co. of Boston, and is for sale by O. R. Patch, Bangor. This excellent periodical for youth, is published at New York by Messrs. Dix, Edwards & Co., $1 per annum.

PATTERSON BROKE JAIL.—Patterson was sentenced on Wednesday to eight years in the States Prison for an assault with an attempt to kill Mrs Jane Greene. We learn that he broke jail on Thursday morning at 8 o'clock, knocking the jailor down, rushing out, and leaving rapidly for the woods. He had not been retaken when our paper went to press. We do not learn how he happened to escape the vigilance of the Sheriff.—*Belfast Free Press*.

Many years since a young mother sat by the bedside of her first born, supposed in the last agonies of disease. By perception almost miraculous she arose, wrote a prescription, handed it to an attendant, procured the articles and administered what is now widely known as MRS. KIDDER'S DYSENTERY CORDIAL. Years elapsed, and as the virtue of her discovery became known, the demands on her time and sympathies were great; often, as a friend and neighbor, was she persuaded to visit the sick, presenting in the hour of their distress, a phial of her CORDIAL, receiving only in exchange the heartfelt assurance that the life of a loved one had thus been saved. High and low, rich and poor, all shared her presence and her sympathies, until by reverses of fortune she was induced to issue the public a pamphlet, accompanied by certificates bearing the signatures of those who had themselves, or some member of their family, been miraculously preserved by the use of the medicine. Since that time there has been a steady and increasing demand for it, the aged and the young are alike benefitted by its virtues, until it has now attained a position as solid as the ROCK OF ADAMANT.

Get it for that Old Man—that Old Woman—that Young Man—that Young Woman—that Child—even that Blessed Baby wants, (while teething,) MRS KIDDER'S DYSENTERY CORDIAL. For sale at 100 Court street, Boston, and by Druggists generally.

Mr. Broechiers, the inventor of the celebrated anti-hemorrhagic water which bears his name, has just died in France. He has always refused to make known his secret, and had in consequence, allowed himself to be twice condemned for the circulation of unauthorised remedies. He has just willed to his widow a fortune of a million of francs, and his secret to the Faculty of Medicine.—*Courier des Etats Unis.*

Carpets. A word to those who are about purchasing: When one is about purchasing, as in buying all other goods, there are two great considerations before us. One is to know where to find a good assortment of such goods as we want, and the other, to know where we can purchase the goods at fair prices. Now, as we have, at a great deal of care and trouble, hit upon a place of this kind, we take this method of informing our friends and the public of the fact. The place to which we would call your attention is at E. D. Stevens's, No 272 Washington street. "But," says the reader, "how do you know that he has got such goods as I want? Perhaps I do not want such carpetings as you bought." We will tell you how we know. From the fact that he has every style and quality of English, Velvet, Tapestry, and Brussels Carpetings, together with every style and quality of low and medium priced goods that can be desired, and at such low prices as to astonish all who visit his establishment. His store is spacious, light, and pleasant, and the goods are piled up on every hand, as though they cost nothing, with Rugs of every description, thrown in.

If you are in want of anything in his line give him a call, and our word for it you will be so well pleased with what we have told you, that you will immediately subscribe for our paper and pay for it in advance, as it always tells you the truth! Remember the place, No 275 Washington street, Boston.

28 WINTER STREET!
VERY, VERY CHEAP!
FOR SALE AT
ADAMS'
WAREROOMS,
(Removed from Washington Street.)

Owing to the continual demand all through the past season for their peculiarly easy fitting CORSETS, they have been induced to order largely, and would now offer the French English, and German Corsets at unprecedented low prices, together with all the beautiful varieties of MRS. ADAMS' own French made Bodices, which are now too well known and appreciated to need comment. It being the intention of Mrs A. to sell all the Corsets that are to be sold in Boston this spring, owing to the prices, she would beg that ladies will bear in mind that 28 Winter Street is the only place where Mrs. Adams is to be found, it being the impression with some persons that she still has a store, or Corset Wareroom in her old neighborhood; her desire is to guard her customers from such a mistake.

Inquire of the Boston or New York Customs who is the most extensive importer of Corsets in the States. They will tell you GEO. W. ADAMS, of 28 Winter Street.—This establishment is conducted on most liberally low price principles, and is at all times posted and amply supplied with every style of Bodice, Jacket, or Corset in vogue. One or the other of this House is in Europe, conducting the manufacturing and shipping the goods to this country—these facilities affording the means to sell much less than others in the business, together with a determination to keep the lead by disposing of both low and high priced goods at a very fraction of profit. It is well known that Mrs. Adams has long been at the head of her profession, having had during thirty years, much experience and opportunity for cultivating business talent in the best French and English schools, also she being the first woman patentee in America. The celebrated ADAMS' PATENT ABDOMINAL SUPPORTER, so justly pronounced by *Sir Astley Cooper* and *Sir James Clarke* the cleverest thing of its kind, is her own invention.—Those in need of this article will please make personal application as above.

For sale the FRENCH PATENT WERLEY CORSET, of the Boston Agent, as above.

Dealers can be supplied with Mrs. Adams' French Busts, for the exhibition of Corsets. They may also be furnished with her French metallic cuts, for advertising.

JESUITISM!

THE CATHOLIC LETTERS
Addressed to a Young Kinsman about to Join the Church of Rome
BY E. HASKETT DERBY, ESQ.
In one volume 12mo. ——— Price 75 cents

These Letters covering the whole Catholic question, are, without doubt, the most able and learned resume of this subject ever given to the world.

The arguments, and the conclusions are masterly and irresistible, and strange as it may seem for an eminent lawyer to leave Blackstone and Coke and, for a time, bend the whole energies of his mind, with that keen sagacity peculiar to this legal profession, to an exhausting research among the tomes of the Fathers of Theology, still, the service which he has rendered to the cause of truth, and the fact that his labors resulted in changing for life the course of a beloved kinsman who would otherwise have joined the Church of Rome, will ever be a cause for gratitude.

One of the merits of the work is a spirited review of Bunsen, Bowson, Conybeare, Milner, and other modern writers, and a well digested argument on the planting of the Church in Britain by St. Paul before the Roman Pontificate was founded.

Rev. Dr. Peabody, in a note to Mr. Derby after a careful reading of proof sheets uses the following language:

"Your main argument, it seems to me, is to the point, and overwhelmingly conclusive. I hope and do not doubt, that it will do much good, while it is honorable to yourself both as a parent and a scholar."

We believe this work is destined to become
A TEXT BOOK FOR PROTESTANTS,
A vade-mecum of unanswerable arguments against the falsehoods of Romanism.

Kansas Affairs.

New York, May 31.

The Washington Correspondence of the Tribune dated 31st inst., says that Mr. Pegg, the Secretary of the Kansas Commission, arrived in the city last night. He left Leavenworth on Saturday last, where the Commission were in session. He fully confirms the accounts of the sacking of Lawrence, and the burning and destruction of property and general pillage described in the accounts already published.

Chicago, May 31.

Col. Eldridge, of the Free State Hotel at Lawrence, arrived here last night, also two bearers of despatches to Washington. General Pomeroy had escaped from Lawrence, and it is expected that he will arrive in this city to-night. A meeting is said to have been held in Kansas city on the 22d, to determine what measures are to be taken in regard to the American Hotel, said to belong to the Emigrant Aid Society.

Arrival of the Empire City.

New York, May 31.

The steamer Empire City from Havana, arrived here at 2 o'clock to-day. She left Havana on the evening of the 26th. The same day, a few hours previous, the U. S. steamer Susquehanna, Capt. Sands, had arrived, being the only American war vessel in port. Just prior to the Empire City's departure, she was boarded by a boat from the Susquehanna, and inquired by the officer in charge that she would leave that afternoon (26th,) at six o'clock for Key West, intending to join there the steamer Fulton and sloops Saratoga and Cyanne, and thence proceed to Greytown.

The Merrimac, U. S. steam frigate, had not yet arrived, but was looked for hourly, likewise to proceed to Greytown. The Potomac flag-ship, Com. Paulding, had not recently been heard from, and was supposed to be cruising in the neighborhood of Barbados.

Mr. Sumner's Condition.

Mr. Sumner passed a comfortable night, but is in a very bad condition. It turns out that the scalp was torn from the skull for an inch or two in width beyond the cuts, which was not observed when they were first sewed up. The sense of inflammation and suppuration is thus very extensive, and exhibits a malignant and acute wound. Two physicians are in attendance this morning. The greatest care has to be taken to keep the patient quiet. It is likely to be a long time before he can get to the Senate. He will be removed from the city so soon as his condition will permit.

Investigating Committee's Report.

The Washington correspondence of the New York Evening Post, of the 31st says, the Investigating Committee of the House have prepared their report. It gives a synopsis of the evidence taken, which covers more than sixty printed pages, and concludes with a resolution expelling Brooks and censuring Keitt and Edmundson. The minority report that there has been no breach of privilege, and if there has, that the House has no jurisdiction.

Central American Affairs.

The French Courier of to-day says, the news from Central America, brought by the Illinois, has announced the retreat of the Costa Ricans, while preserving a suspicious silence in regard to the movements or situation of Walker. Our private advices to-day enable us to raise the veil. We have received from a very good source, information that the fillibuster general was at the last date in a desperate position.—He had found himself constrained to evacuate Granada, his capital, and the principal theatre of his exploits, to take refuge in the mountains, short of men, munitions and provisions. The approaching denouement of the bloody comedy played in Nicaragua, by the destruction of the ephemeral power of the fillibusters, seems therefore as probable and nearer than ever.

Sumner Meetings.

Portland, May 31.

A large and excited Summer meeting assembled at the City Hall this evening, Hon. Wm. Wood presiding. Many distinguished speakers addressed the meeting. Strong resolutions, condemnatory of Brooks, were passed, urging his expulsion from the House.

Syracuse, May 31.

A great mass County Convention assembled in this city to-day, to consider the late outrage committed at Washington upon the person of Senator Sumner of Massachusetts, by Preston S. Brooks of South Carolina, and the Kansas atrocities. Peter Outwater presided. Speeches were made and resolutions passed strongly denunciatory of the assault upon Mr. Sumner and the course of the Federal Government and Border ruffians in reference to Kansas. The indignation of the people here with reference to these topics is unbounded. Men of all parties feel alike in regard to them.

The Correspondence between Brooks and Senator Wilson.

The following are the main features of the correspondence between Messrs. Brooks and Wilson.

Mr. Brooks complains that Mr. Wilson spoke of his attack on Mr. Sumner as cowardly, and says "Therefore, I hold myself at liberty, by this note, to request that you will inform me, without delay, where and when, outside of this District, a further note will reach you."

Gen. Wilson replied:—"I characterized, on the floor of the Senate, the assault on my colleague as brutal, murderous, and cowardly. I thought so then; I think so now, and have no qualifications whatever to make with regard to those words. I have always regarded duelling as a relic of barbarous civilization, which the law of the country has branded as crime. While, therefore, I religiously believe in the right of self-defence, in the broadest sense of the law of my country, the convictions of my whole life alike forbid me to meet you for the purpose indicated in your letter."

Mr. Brooks, by Mr. Lane, of Oregon, sent 29th a note to Gen. Wilson, demanding that Gen. Wilson should either retract the words "murderous, brutal and cowardly" used by him in characterizing Mr. Brooks's assault on Mr. Sumner, or indicate where he would receive a hostile message from Mr. Brooks.

Gen. Wilson in answer to the letter, refused to retract, or qualify his words; declined receiving a challenge, but said he would defend himself from personal violence. For some hours after this correspondence had passed, a street fight was expected, as Gen. Wilson was well armed, and surrounded by armed friends. Mr. Brooks, however, said he designed no violence, and it was agreed not to bring the subject before the House.

More Chivalry.—The Petersburg Intelligencer which is one of the principal supporters of the Fillmore ticket, has the following contemptible notice of the outrage on Senator Sumner:—

Sumner's Licking.—We are exceedingly sorry that Mr. Brooks dirtied his cane by laying it athwart the shoulders of the blackguard, *Sumner*. We regret that he did so, not because Sumner got a lick amiss, not because he was not justly entitled to all he got and more besides, but because the nasty scamp and his coadjutors will make capital for their foul cause out of the affair. They will raise a howl which will split the public ear about the violation of the privileges of debate, Southern bullyism, &c. Master Horace Greely is particular will jump out of his boots and breeches, I have about four thousand fits, and thus put up the price of assafœtida and burnt feathers throughout the country. Disagreeing with the Richmond Whig as to the effect of Sumner's thrashing—we entirely concur with it, that if thrashing is the only remedy by which the foul conduct of the Abolitionists can be controlled, that it will be well to give Seward a double dose at least every other day until it operates freely on his political bowels. It is true that the running rascal is a little too smart *to violate the decorum of debate*, (!) but his adroit demagoguism and damnable doctrines are infinitely more dangerous to the country than the coarse blackguardism of the perjured wretch, Sumner, who will, to his dying day, remember that *his* Brooks is not the "*running* brooks," that one Shakspeare found "books" in.

Washington Matters. *Washington*, May 30. The special committee in Col. Brooks's case will report on Monday, and recommend his expulsion from the House. They will also recommend a vote of censure on Keitt and Edmundson.

The minority will report that the assault on Mr. Sumner involves no violation of the privileges of the Constitution, and outside of the Constitution Congress has no privileges.

Virgil D. Parris of Maine, Special Agent of the Post Office Department for New England, was dismissed from office on Tuesday. A few hours before his dismissal he had called on the Postmaster General, and intimated his intention of voting in the Cincinnati Convention for Mr. Buchanan.

Mr. Brooks left for Cincinnati this afternoon, and Gen. Wilson will go North to-morrow.

The dismissal of Mr. Crampton has caused no sensation here. Mr. Lumley, Secretary of Legation, may remain as Charge ad interim.

All serious business in Congress is deferred until the 25th of June.

A Few Facts from Kansas. Fourteen men have been shot at within the last nine days—irrespective of the two fatally wounded, already mentioned—in the vicinity of Lawrence, by parties of Governor Shannon's "legally-organized posse." A list of their names is preserved, and will be produced at the proper time.

Horses, revolvers, rifles, shot guns, knives, and oxen have been taken every day, from squatters met and overpowered on the highway.

Mr. Jesse Newill, recently from Ohio, had occasion to go near Lecompton a few days ago. He was arrested several times, but finally entered Lecompton. He saw Mr. Shannon, rode up to him, and asked what all this meant? Mr. Shannon said there was no use complaining; that the territory was under martial law, and a civil war inevitable!

Several citizens of Lawrence have gone up to Lecompton recently, and remonstrated with Marshal &c. Donaldson, about the outrages committed on the persons and property of peaceful squatters by his "legally-organized" posse. He replied that he could not restrain them, and did not wish to be responsible for their conduct. That is law and order both!

From Havana. *Havana*, May 25.—I learn by passengers on board the Illinois, that Nicaragua is blockaded on the Pacific side by French vessels of war; that the Sierra Nevada was not permitted to land her passengers at Punta Arenas, and was too late at Panama to put them across for the Illinois.

On the morning of the 22d, part of the Expedition for Vera Cruz left our port. The squadron of demonstration is composed as follows:—Frigates Cortez, 40 guns; Terrolano, 30; steam frigate Isabella Second; brig of war Valdez, 18; steam sloop Antonio de Ulloa, 6 guns, which have already sailed; the steam sloop-of-war Bierbo-de-Garay, 6 guns, left St. Jago several days since, under orders for Vera Cruz. There remain, to go down this week, steam sloop-of war Pizarro, 6 guns; brig-of-war Habanero, 16 guns, and two transports or store-ships of 6 guns each.

Rumors announce that stringent demands are to be made for the payment of old debts.

Sugars have been in active demand throughout the week, and firm. Molasses still demands high prices, but is in active request at 5½ rials.

What Constitutes a "Relative."—A great deal of nonsense has been talked about the relationship between Butler and Brooks, as justifying the outrage committed by the latter. Perhaps some of our readers may be curious to know precisely what this relationship is. A letter received from Mr. Brooks by a gentleman of this city, last February, says "My grandfather married Senator Butler's father's aunt." *Boston Atlas.*

Syracuse Convention. *Syracuse*, May 29. The Convention of Radical Abolitionists, after an animated discussion of the policy to be pursued by them in the present political crisis, nominated Gerritt Smith, of New York for President, and Samuel McFarland, of Pennsylvania, for Vice President, and then adjourned *sine die*.

The Cincinnati Convention. The Washington correspondent of the New York Journal of Commerce says that "hundreds of people not concerned in the Cincinnati Convention, will attend it. For it is said, and by many believed, that it will be the last assembly of the kind."

A Beautiful Complexion may easily be acquired by using the "Balm of a Thousand Flowers." It will remove tan, pimples, and freckles, from the skin, leaving it of a soft and roseate hue. Wet a towel, pour on two or three drops, and wash the face night and morning.

Copy of a Letter received by Mr. Curran, our agent at Calcutta.

Calcutta, June 3, 1852.

My Dear Julien:—I desire, for the information of Perry, Davis & Son, to state a few instances of good resulting from the use of the medicine manufactured by them, called Pain Killer. The first case that I shall mention in which I performed a cure was that of Spleen, of a year's standing. The person afflicted with this disease was a young native. Together with the Spleen he used to get a fever. Before trying the Pain Killer, however, I adopted another remedy, but that failing, I resorted to the Pain Killer, and I am happy to say, that both the Spleen and the fever were removed in a very short time. A servant boy who had his right hand severely scalded by the falling of boiling oil on it, was in a few days perfectly cured by the application of a mixture of Cream and Pain Killer, as directed in such cases. Then my child, a girl three years old, was cured of an obstinate Cough. Lastly, I shall refer to myself,—I took the medicine under circumstances which it would be unnecessary here to state—but it was not from any confidence I had in it; on the contrary, I took it with a great deal of fear. However, I must say that it several times relieved me of cold in the chest, and it cured me of a Fever, of a pain in the left knee, and an ulcer in the mouth. In addition to the above I may mention a case of cholera cured by this medicine, which was brought to my notice by a friend. The coachman of my friend's brother-in-law was attacked with this disease, and medicines kept by my friend's family for this complaint were given to the man without any effect, and, as the last resort, when he was cold and speechless, the Pain Killer was administered, which threw a warmth into the system and revived his sinking energy—in short the man was restored. Yours, affectionately,
R. W. CHILL.

Cheap & Convenient Building.

Door, Sash and Blind Factory.

A. DUNBAR

HAS been very successful in completing several contracts for Door Frames, Doors, Window Frames and Sashes, and Blinds, for good dwelling houses and other buildings to be erected in this city, the coming season He has excellent workmen in his employ, and has superior stock, so that he is now able to supply to those about to build the best articles of Door Frames, Window Frames, Sashes, and Blinds, made to any dimensions and of superior quality either for a whole building or for a less quantity The trouble and expense of building is very much lessened by having these articles made separately, so that the carpenters have only to put them in their place in the structure

This business has now become so well systemized that only a small margin is left in knowing beforehand the cost of a dwelling house, while the work is of a uniform excellent quality.

Any one interested can examine specimens of the work at the factory, near the Rose Place, or at the store of M S Jackson on Exchange st., and at either place any article may be obtained or large quantities ordered

Mr Dunbar is also prepared to furnish Window Blinds ready painted, and will hang them at the shortest notice

By long experience, and by determined perseverance, the subscriber is now enabled to suit his customers, both in quality and price, and so well organized is the business that no man should now think of building in the old and slow and imperfect methods

This popular and specific remedy is now offered to the afflicted, and guaranteed to cure all the above complaints It searches out the very roots of the diseases driving out all the diseased fluids of the body, thus removing the cause and rendering the cure

Certain and Permanent

This medicine allays pain and inflammation, which other remedies invariably cause and can be taken with less trouble and expense to patients This infallible remedy has saved thousands upon thousands from the hands of

Merciless Quacks,

if not from premature graves In cases of infection, the Compound Buchu is the only article worthy of the least confidence of the afflicted in performing

SAFE CURES

It contains no narcotic, mercury, or other injurious drug, but is a purely VEGETABLE COMPOSITION. It is very agreeable to the taste creates no perceptible odor, and may be taken by persons of either sex without hindrance from business or medical advice, as plain directions for use accompany the medicine Reader if you have any of the above complaints, do not neglect them,

Delays are Dangerous

With this medicine you can cure yourself, and thus prevent all exposure

Truth must and will prevail

This medicine speedily and effectually cures the most virulent form of secret diseases, and eradicates every particle of infectious matter from the patient, to a perfect state of *Health and Purity*—And as a medicine which must benefit everybody, from the simply delicate to the confined and despairing invalid, no equal is to be found, it acting both as a *Cure and Preventive* of any of the above ailments

HELMBOLD'S HIGHLY CONCENTRATED

Compound Fluid Extract Sarsaparilla,

—FOR—

Purifying the Blood, removing all diseases arising from Excess of Mercury, exposure and imprudence in life, chronic constitutional disease arising from an impure state of the Blood, and the only reliable and effectual known remedy for the cure of Scrofula, Salt Rheum, Scald head, Ulcerations of the Throat and Legs, Pains and Swellings of the Bones, Tetter, Pimples on the Face, and all scaly Eruptions of the Skin

It is gratifying to the proprietor of these medicines to be able to state that it is now nearly three years since they were first introduced, during which time they have been extensively used in various parts of the United States, and have given to patient and practitioner the highest degree of satisfaction in the various cases in which they have been employed, whether in town, country hospital, or private practice, they have invariably given the most decided and unequivocal satisfaction, and produced the most salutary and beneficial effects Numerous letters have been received from the most distinguished physicians in the country, and from the professors of several medical colleges, recommending in the highest terms the value of these medicines and their superiority over all other preparations for such complaints as the proprietor recommends Numerous preparations of Sarsaparilla and Buchu, and various modes of preparing them, have been given, all of which of course will differ according to the mode of preparation which each individual may adopt.

These medicines require considerable care in the preparation, and the employment of different menstrua in successive operation to take up the extractive matters, and, in consequence, are most frequently improperly made and not unfrequently much impaired, if not rendered totally inert, by the injudicious and unskillful management of those unacquainted with pharmaceutical preparations It is, therefore, of the highest considerations and importance to the public and to the faculty, that there should be standard preparations of uniform strength and possessing the most advantages To effect this and obviate the evil alluded to, I have made a number of experiments to discover the most effectual mode of extracting the virtues of the Sarsaparilla and the Buchu, and to discover the most eligible form for their exhibition The experiments have resulted most favorably, and it is with much pleasure I now offer to the public and the faculty my Compound Fluid Extracts, which contain all the virtues of the articles they are represented to be made from in a highly concentrated form, and are the most active preparations which can be made, Two table spoonsfulls of the Extract Sarsaparilla added to a pint of water is equal to the Lisbon diet drink, and one bottle fully equals in strength one gallon of Syrup of Sarsaparilla or decoction, as usually made

—PRICES—

Fluid Extract Buchu, $1 per bottle, or 6 for $5
" Sarsaparilla, " "

Certificates of cures and recommendations from distinguished professors and physicians, will accompany each preparation Prepared and sold by
